

MAXXREACH®

MaxxReach

Telescopic Conveyor

* Specifications of models available may vary from the model shown.

BENEFITS

High Performance

High Quality

Compact Footprint

Improves Efficiency

Essential Safety

DESCRIPTION

MaxxReach telescopic conveyors provide the highest level of productivity for large volume, shipping and receiving applications at any type of distribution center. With its narrow footprint, long reach, and touch-free extension, you stay clear of floor surfaces and gain valuable floor space when the unit is fully retracted. Despite its heavy duty design, it is very easy to install and requires minimal operator control.

With the MaxxReach system, you can automate your loading and unloading areas and convey a variety of products from large to small packages, from loose bags to tires. Our state-of-the-art engineered design incorporates quality, ergonomics and safety into each build-to-order design that help maximize efficiencies.
